### **:::Centro Negra:::**

[www.aadk.es](http://www.aadk.es)

**Location:** Murcia

**Price:** 290-500€/m

**Description:** AADK Spain establishes a permanent space of investigation and contemporary creation in the south of Spain and chooses CENTRO NEGRA in Blanca for his attainment and development, turning this centre into a space of investigation and artistic creation with the purpose of consolidating it as a pattern in our international networks. The peculiar location of the township and his geographical and landscape's characteristics offer the possibility of using the environment as integral part of the intervention.

We take advantage of this meeting for the study-observation-development of the contemporary culture, linking the creation of ideas, with the materialization and investigation of what offers us Blanca and its culture. We want then to place CENTRO NEGRA in Ricote's Valley as neuralgic space of investigation and contemporary creation with projection to regional, national and international level.
